LEGAL CONTRACT

This Agreement is being made between Service Receiver and Service Provider. It also be referred to as Party or together as the Parties. This Agreement will become binding on both Parties upon the date of signing. Both Parties acknowledge that they are using digital signatures for signing this Agreement.

1. Services

We agree to perform the Services listed in Appendix 1. The Parties acknowledge that the Services listed in Appendix 1 are part of the Agreement and serve as good and valuable consideration for this Agreement.

2. Compensation

Total Cost of the Services according to this Agreement is \$2570 (two thousand five hundred and seventy dollars) at signing represents 40% of the total cost or \$1028 (one thousand two hundred and twenty eight dollars) represents remaining 60% of the total cost or \$1542 (one thousand five hundred and forty two dollars).

3. Additional Expenses

Service Provider will be reimbursed by Service Receiver for any reasonable and necessary expenses incurred in the performance of the Services. All expenses must be pre-approved.

4. Payments

Invoiced amounts must be paid by Service Receiver within 5 working days after receipt of the invoice to the bank account indicated in the invoice.

5. Termination of Contract

The term of this Agreement is 2 months from the date signed, unless terminated earlier by either party. This Agreement is automatically terminated when both Parties have terminated the Agreement and all payments have been received.

Customers

Prospects

Requirements on identity verification

Customers & prospects

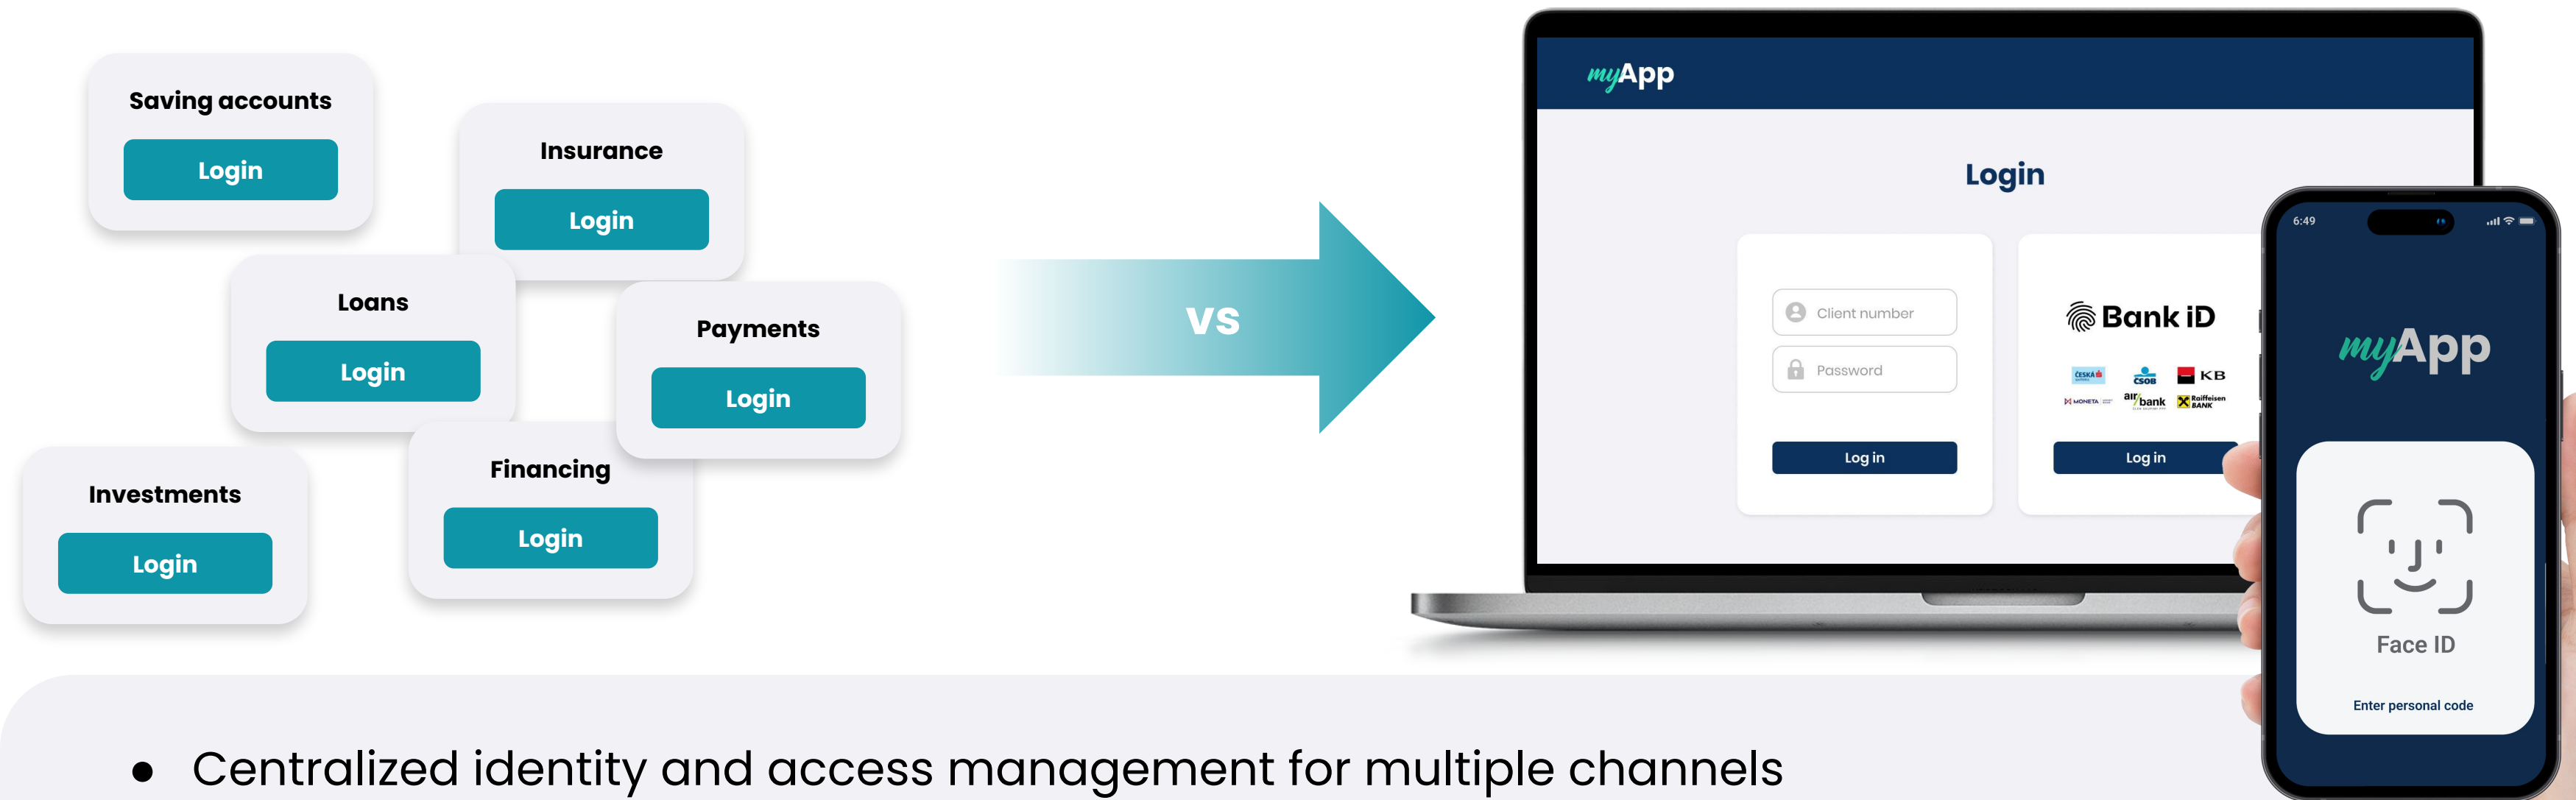

✓ **Seamless onboarding** – one click ideally

✓ **AML-checks on the background** – no selfies and documents scanning!

✓ **Availability 24/7 and high performance** – with no compromises

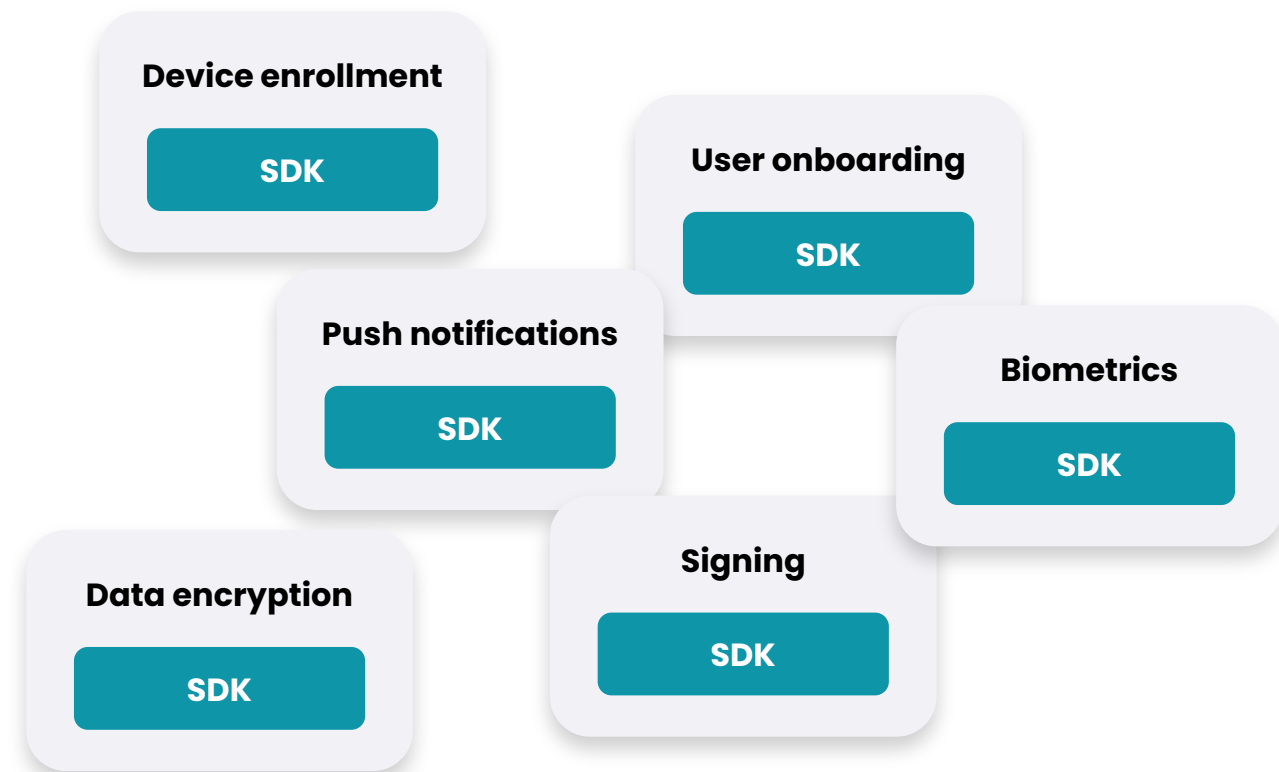

✓ **Risk management**, legal requirements and compliance

Web portals identity federation matters!

- Centralized identity and access management for multiple channels
- One-click onboarding for new channels (SSO, one-click onboarding)
- Authentication / authorization / signing as a service to business apps
- Follow standards - OpenID connect is your best friend

Mobile apps software development kit

- Reuse to accelerate software development cycle
- Reduce costs and focus on business value
- Mitigate risk of frauds and security issues
