

# Zero Trust Architektura pro ZoKB / NIS2

Security Talk Ostrava

31. května 2024

Ing. Jiří Hromádka, CTO & Co-Founder

# Představení

**Jiří Hromádka**

CTO & Co-Founder  
GoodAccess

Network, Security & SW Engineer  
13+ years in Cybersecurity

# O čem to bude?

## Technická infrastruktura pro ZoKB / NIS2

Obecný koncept technologické architektury pro pokrytí tech. opatření ZoKB

## Zero Trust

Vysvětlení základních principů Zero Trust Architektury

## Jak řešit Zero Trust na úrovni sítě

Představení platformy GoodAccess

# Technická infrastruktura pro ZoKB

(z pohledu malých a středních podniků)

## MSSP (Managed Security Services)

Analýza rizik, ISMS, Procesy, Manažer Kybernetické Bezpečnosti

### Endpoint Security (EDR)

Ochrana zařízení zaměstnance  
Antivirus, Detekce a Reakce na hrozby

### Zero Trust Network

Bezpečná síť - perimetr,  
Vzdálený přístup, Řízení přístupu,  
Detekce a reakce na hrozby

### Identita (IAM / IDM)

Digitální identita zaměstnance  
Vícefaktorová Autentizace (MFA)

### Security Information and Event Management (SIEM)

Sběr, korelace a vyhodnocení logů  
Detekce a reakce na anomálie (XDR)

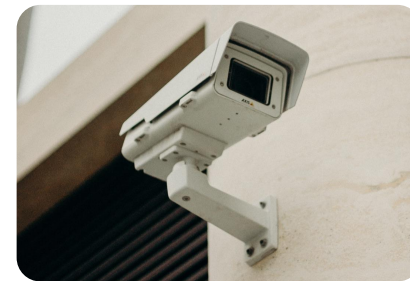

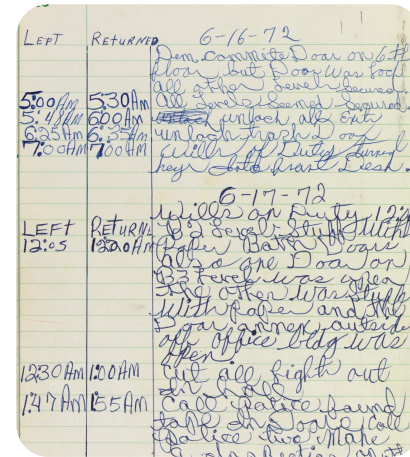

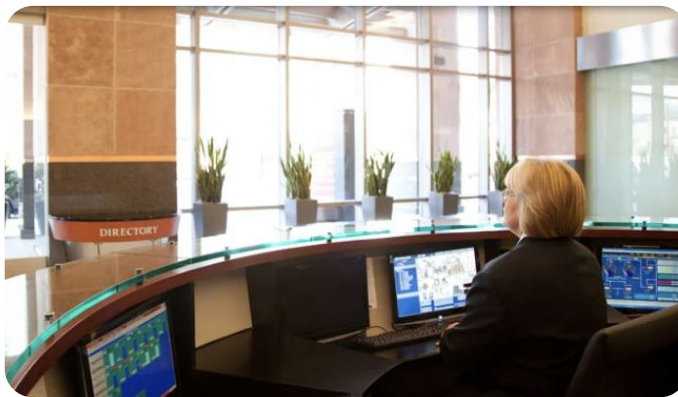

### Backup

Zálohování a obnovení

# Zero Trust

# Starý svět

# Nový svět

**55%**

Zaměstnanců  
**pracuje** více  
**vzdáleně** než z  
kanceláře

**32%**

Zaměstnanců by  
změnilo práci  
pokud by nemohli  
**pracovat na**  
**dálku**

Source: Owl labs, 2021 & 2022

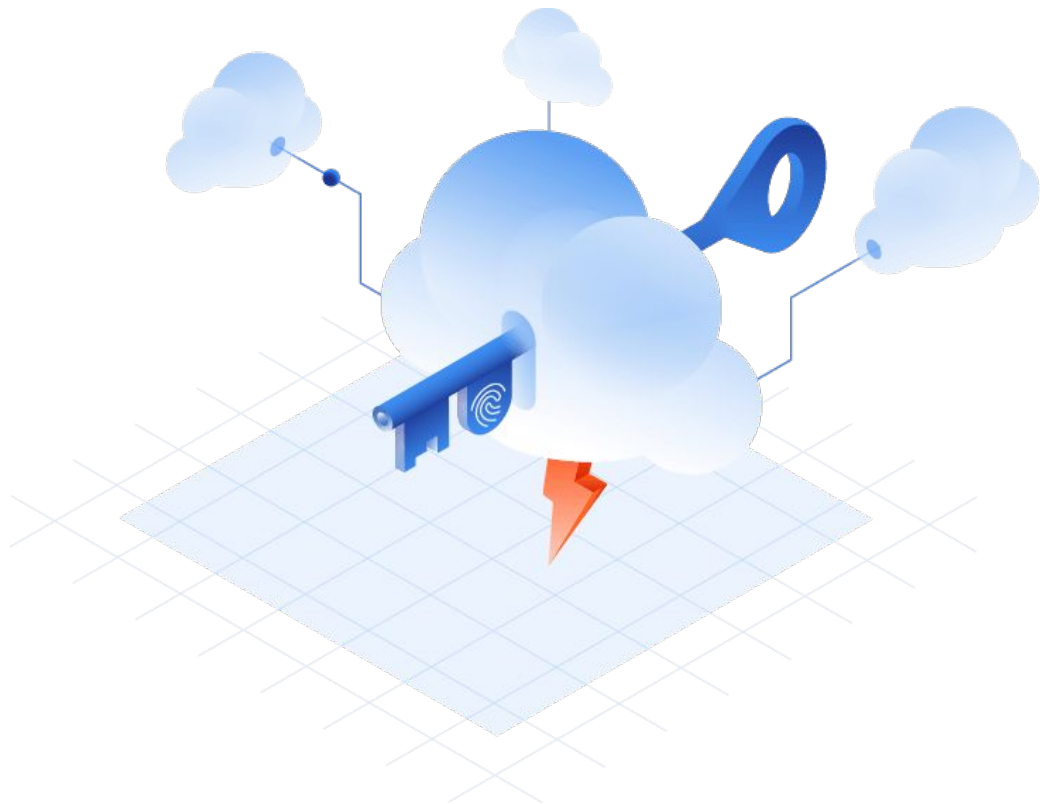

# Zero Trust

## Proč?

- Plná kontrola
- Plná auditovatelnost
- Výrazně vyšší bezpečnost
- Minimalizace rizik

## Nikdy nevěř, vždy ověř

- **Kdo a kdy** vstupuje?
- **Co** tam dělá?

# Bezpečné prostředí

ochrana proti **vnějším útokům**

**Firemní budova**

**Zero-Trust Network Perimeter (SDP)**

# Ověření identity

ochrana proti **krádeži identity**

## Ověření identity

## Multi-factor Authentication (MFA / SSO)

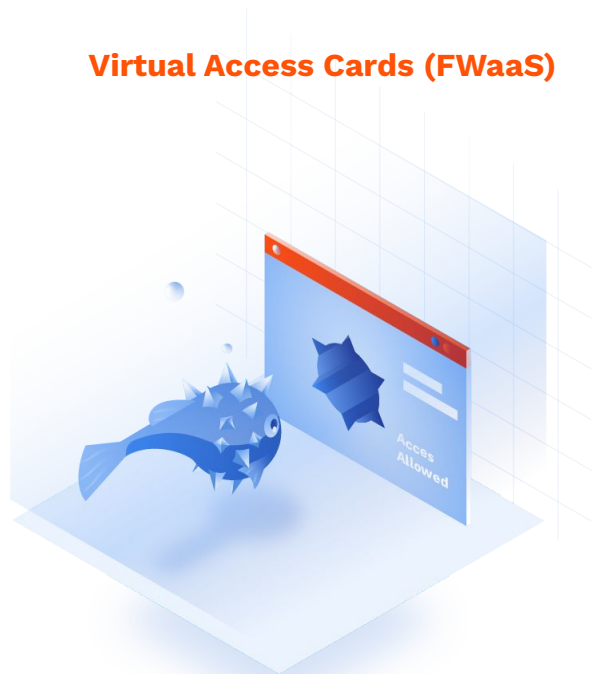

# Řízení přístupu

redukce prostoru k útoku - segmentace

## Přístupové karty

## Virtual Access Cards (FWaaS)

# Bezpečnostní politiky

ochrana proti **útoku zevnitř**

## Detektor kovů / bezpečnostní kamery

## Threat Blocker / Device Health Check / Anomaly Detection

# Evidence

pro potřeby **compliance**

## Návštěvní kniha

5:00 AM	5:30 AM	floor, but Door was lock
5:48 AM	6:00 AM	all other level secured.
6:25 AM	6:35 AM	All levels seemed secured.
7:00 AM	7:00 AM	<del>unlock</del> unlock all Entry
		unlock trash room
		Wells of Duty turned
		key into front Desk.
		6-17-72
LEFT 12:05	RETURN 1:30 AM	Wells on Duty 12:00
		to 2 levels. Stuff with
		Paper Bath Door
		also are Door on
		B3 level was open
		the other was stuff
		with paper and the
		Door annex outside
		off office bldg was
		open.
12:30 AM	1:00 AM	cut all lights out
1:47 AM	1:55 AM	in hall
		Call Walter David

## Access Logs

# Zero Trust Sit'

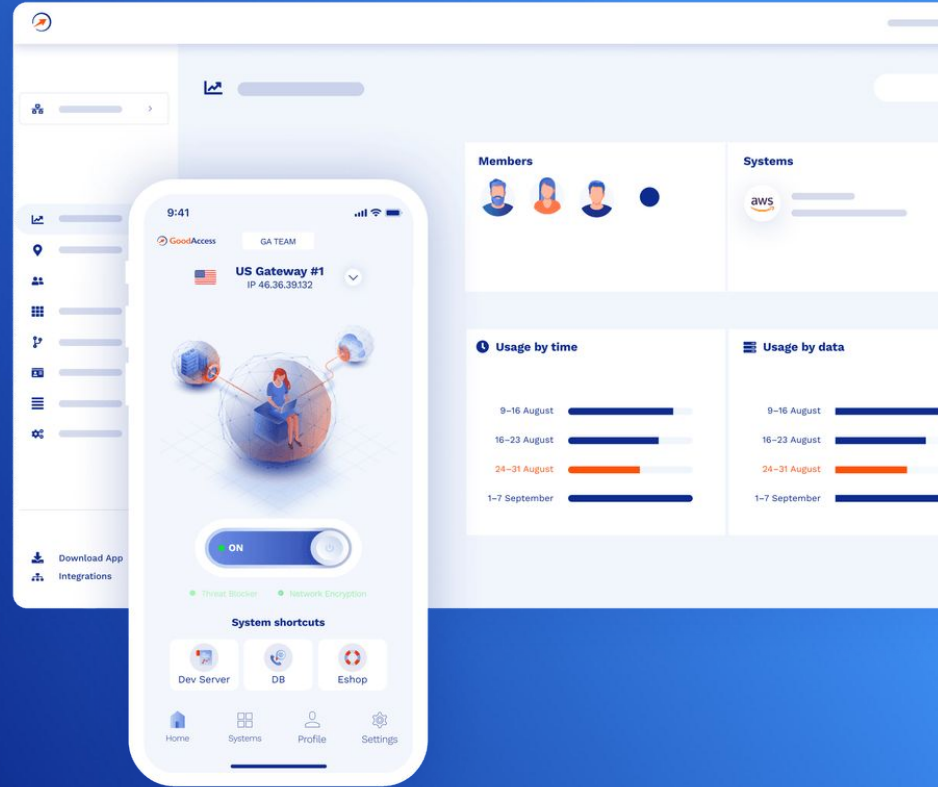

**SASE** (Secure Access Service Edge)

**SDP** (Software-Defined Perimeter)

**ZTNA** (Zero Trust Network Access)

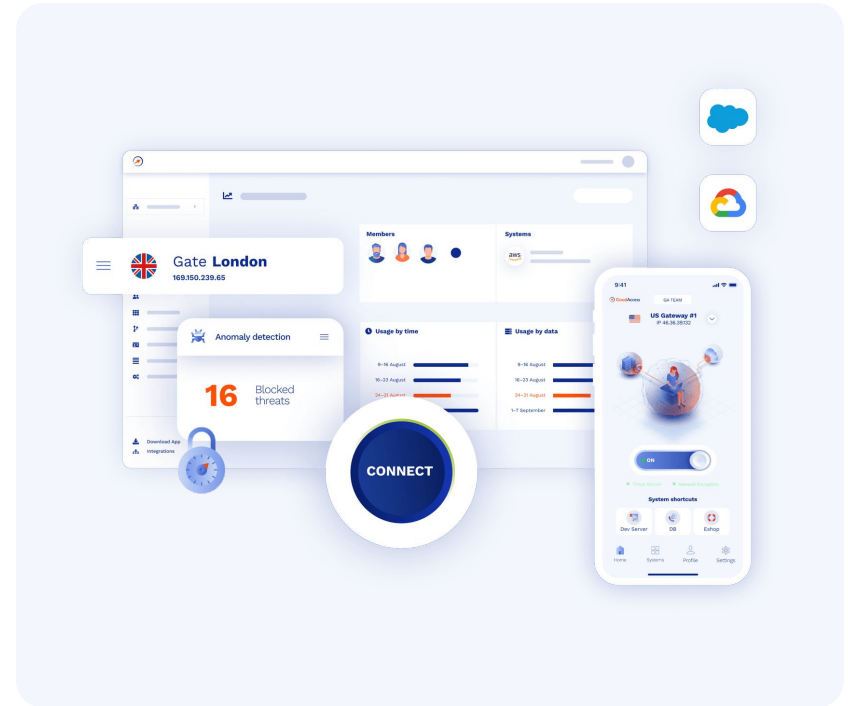

# Platforma GoodAccess

# Cloud-Based SaaS platform

Řešení kombinovaná v jediné platformě:

- Software-Defined Network Perimeter (**SDP**)
- Zero Trust Network Access (**ZTNA**)
- Device Management and **Device Posture Check**
- **Network Segmentation**
- Identity based Access Control (**IAM**)
- Multi-Factor Authentication (**SSO/MFA**) on network level
- Phishing Protection (**DNS & Filtering**)
- Security **Logs and Reports**
- *Threat Detection & Response (NDR / XDR) (2024)*

# Plná kontrola v jedné platformě

**GoodAccess** je **SaaS - Zero Trust Network as a Service** - platforma, která organizacím snadno umožní přejít na **zero trust architekturu** bez zásadních zásahů do stávající infrastruktury.

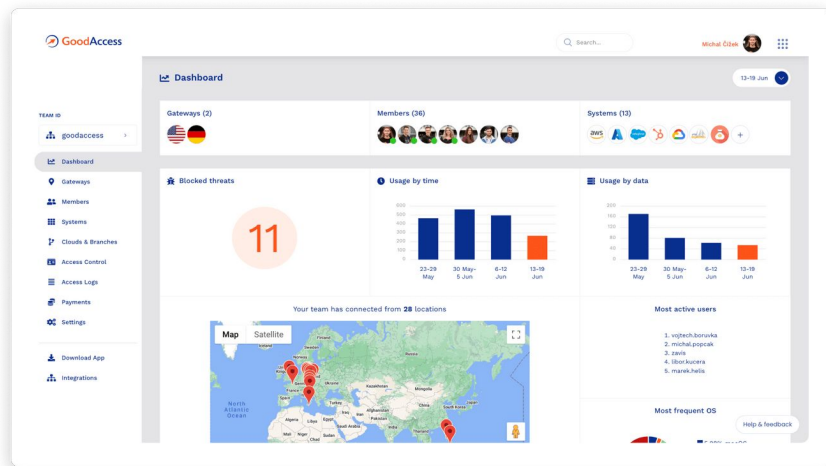

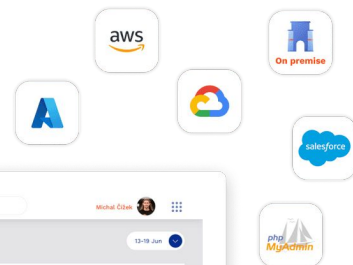

**Snadné nasazení (hodiny/dny)**

**Snadná správa**

**Snadné použití pro zaměstnance**

# SASE / ZTNA

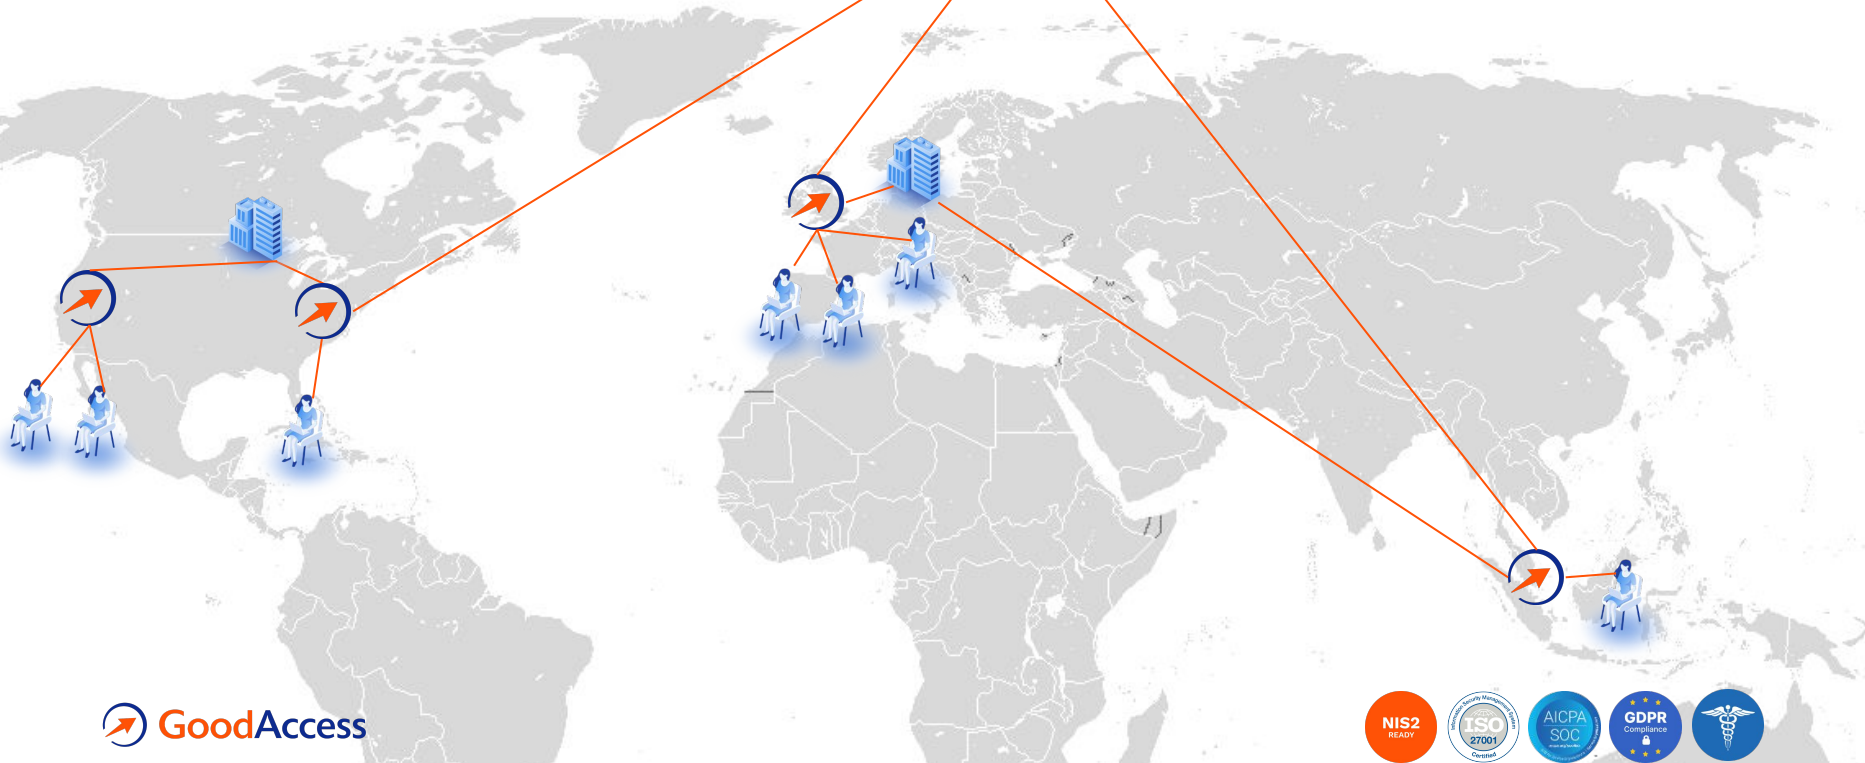

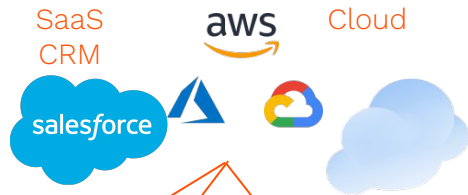

## Zero Trust Architektura

Topologický pohled

# SASE / ZTNA

Zero Trust Architecture  
Geografický pohled

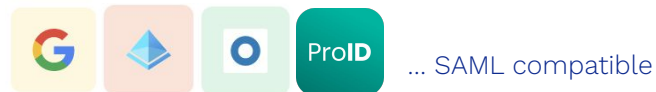

# Snadné nasazení do stávající infrastruktury

## Krok za krokem

### 1. Identity - zaměstnanci

Identity Provider IAM / MFA / SSO / SCIM

### 2. Kritické systémy

Network Segmentation - Define critical systems and it's network location

### 3. SASE / ZTNA infrastruktura

Gateways, Clouds & Branches (On-Premise), IP Whitelisting

### 4. Přístupy a bezpečnostní politiky, napojení na SIEM

Access Cards for Users & Groups, Device Posture Check policies

# Live Demo
