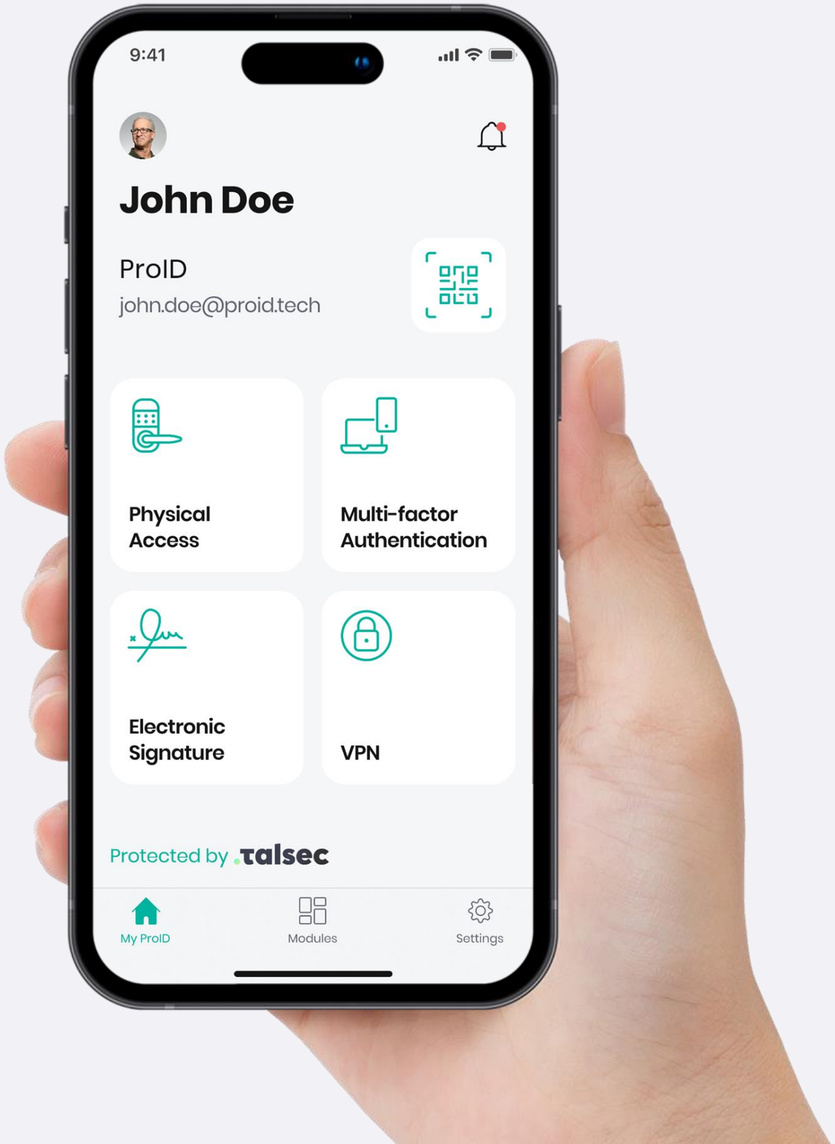
Hybrid / SaaS / On-premise

ProID Mobile

Perfect combination of Elegance, Hi-Tech & Security

- **Ultimate Workforce App**
  - single app that solves all security needs of an Employee
  - powerful, complex and user friendly
- **Multi-Factor authentication into “anything”**
  - using standard protocols or certificates (PKI)
  - passwordless approach (biometrics or PIN)
- **Remote electronic signature**
- **Physical access / device control**
  - emulation of contactless chip via BLE / NFC
- **Security**
  - real-time app / phone monitoring – “RASP”
  - PIN policy



ProID Bittron

MFA

Passwordless

eSignature

FIDO2

3FA

On-premise

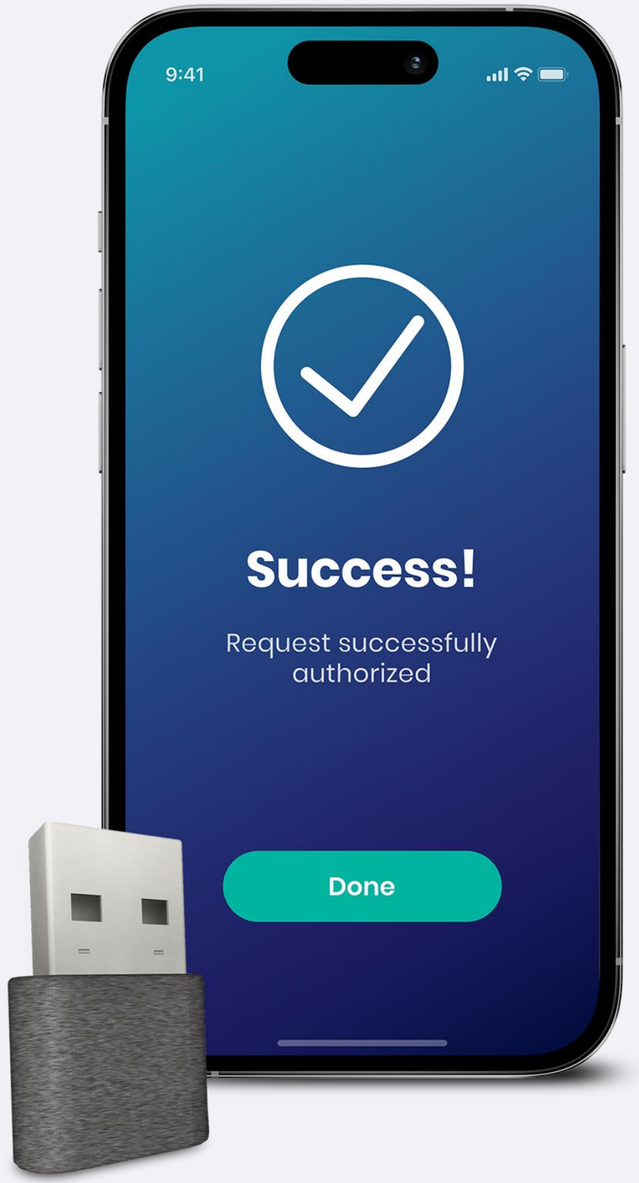
Bittron

Combination of PKI HW token & mobile app

USE CASES

- Secure login into systems and applications
- Qualified electronic signature / seal (QSCD)

- HW token combining card reader, Bluetooth and Nano SIM card
- Authorization request in app (PIN / biometrics)
- Displays information about every transaction request
- Automatic log-off when BT disconnected (optional)
- FIDO 2 compliant



Management platform

User management:

- User portal / applications
- Tennant (Admin) portal

Tool management:

- Tool Management System

Certificate management:

- Certificate Lifecycle Management
- Automated predefined processes
- Wizard-based scenarios to assist users
